USDA's MyPlate Challenge Week #2

The Peanut Institute continues partnership with USDA's MyPlate New Year's challenge to change America's eating habits. Week #2 focuses on increasing fruit consumption and peanuts make meeting this challenge easier.

Here are a few tips on how peanuts can enhance the flavor of your fruit filled favorites:

DIY Snacks: Personalize your trail mix using peanuts, dried fruits and seeds.

Sweet & Savory: Put peanut butter and strawberries in a tortilla, to make a unique quesadilla.

Creamy Dips: Stir cinnamon into peanut butter and use as a dip for fresh fruits.

Energy-Boosting Tips Include Peanuts

Woman's Day

Women's Day Magazine promoted that eating peanut butter can help individuals find more energy and sleep better. They recommend swapping out a bedtime snack of cookies for peanut butter toast. Explaining that replacing saturated fat and sugar for carbohydrates and protein are linked to less disturbed sleep patterns.
